Rare Disease Day 28th Feb 2023

[Rare Disease Day](#)

Today, **28th February** is the **Rare Disease Day** internationally. Every four years this falls on 29th February, highlighting the rarity.

We hope you can join in raising awareness of **AHC** as part of **Rare Disease Day**. **Around Europe**, and the **world**, **buildings will be lit up** for Rare Disease Day and events will be taking place. If your area is doing this, **please share it** with us on social media with the hashtags

[AHC Challenge for Rare Disease Day](#)

wish, and share your clips on Rare Disease Day.

Full details on this can be found here:

Research

We are keen to collect information on what research is taking place across Europe to highlight on our website.

If your country is undertaking research, please contact us as we have a short form to complete that can be uploaded on the AHC FE website and accessible to everyone.

AHCFE

We recently had an **executive board meeting** and are working on some plans aligning with our **organisation's mission and goals**. We will be in touch soon to update you on these.

In the meantime, if you have any questions or need to contact us, please email us on info@ahcfe.eu

With best wishes
